First M. E. church commencing Tuesday

The most noted among these men who
are to lecture on popular theological sub-
jects is Dr. J. M. Buckley of New York,
editor of the New York Christian Advocate.
Dr. Buckley is considered by many
people to be a bigger man than any of
the bishops. He will lecture Thursday
evening on "The Fatal Box and Other
Supernaturalisms." Friday morning at 10:30
he will lecture on "The Consolatory
Functions of a Pastor," and at 3 o'clock
Friday afternoon on "The Different

Dr. Emory Miller of Iowa will deliver
three lectures on theology. Dr. Miller
will be entertained at the home of Mr.
and Mrs. Geo. M. Noble.

Dr. Miller was once a candidate for
bishop and received a large vote. He is
regarded as a great man intellectually.
Dr. T. H. Seely of Philadelphia, who
knows all about Methodist law, will de-
liver five lectures and will preach Sun-
day night. He will lecture on "Election
and Ordination," "The Making of Our
Nation," "Constitution, Law and Dis-
cipline," and will conduct a question
drawer. Dr. Seely will be entertained at

Dr. S. F. Upham, president of Drew
Theological seminary at Madison, N. J.,

tertain Dr. McGerald during his stay in

THANK THE DOCTOR.

A Thanksgiving Card to Dr. J. C. Brown-
field.

TOPEKA, KAN., Nov. 29, 1894.

To the Editor of the STATE JOURNAL:

As this is Thanksgiving Day, and, as
we all are thankful for some reasons
more than others, permit me through the
columns of your valuable paper, to ex-
press my thanks, my heartfelt thanks,
first to God and then to Dr. J. C. Brown-
field, of Topeka, whom I consider the
most wonderful man on earth. On the
20th day of September, 1894, two short
months ago, I was lying on my bed at
2020 Topeka avenue, with what
two of the most prominent doc-
tors called quick consumption. One of
them told my family I could not
possibly live twenty-four hours; that one
of my lungs was entirely gone and the
other badly affected; and all of these
said I could not possibly live but a day
or two at best.

My wife heard of the wonderful suc-
cess of Dr. Brownfield, who had then
just located in Topeka, and insisted on
having him see me. Dr. Brownfield called
and examined me very carefully, and
stated to me and family that I was very
low, but there was one chance in many
for my recovery, and he would undertake
my case, and also stated that if he did
not put me on my feet in six weeks he
would forfeit his right arm. He also said
my lungs were as sound as his. Although
I coughed incessantly and spit up enor-
mous quantities of tough phlegm and
mucous I improved under Dr. Brown-
field's treatment, just as he said I would,
until today, by invitation, the doctor and
his family took dinner with us. I have
been attending to all my business duties
for two weeks as well and hearty as I
ever was.

My old father is with me from Mis-
souri, and this has been the happiest day
of my life. We rejoice beyond expres-
sion, as I firmly believe, and had that
belief strengthened by the statements
of two of Topeka's best learned phys-
icians, that had it not been for
Dr. Brownfield, I would surely have
been resting beneath the sod. So sure
was one doctor that my health was only
a question of twenty-four hours, that he
sent his bill to my wife for collection.
I have the bill with the date to corre-
spond with the above. Dr. Brownfield
told me every detail, just how I became
afflicted, the cause of my trouble, just
the effects his medicines were going to
have, and they have acted just as he said
they should. I write this in the interest
of suffering humanity everywhere, be-
lieving that Dr. Brownfield has almost
worked a miracle in this case. Also as
an appreciation of not only the skill of
the doctor, but also his wonderful kind-
ness in taking the special interest in me
that he has from the first. May God
bless him and his pleasant little family,
and may his children be blessed with the
same power and knowledge in the relief
of suffering humanity is the wish of his
grateful friend forever.

A CRY FOR WATER.

Such a Scarcity in This County Not Known
Since the Seventies.

There is almost a water famine in the
county. The continued dry weather is
not only injuring the wheat sown early
in the fall, but the running streams and
wells are fast drying up. There is proba-
bly not a stream in the county with the
exception of the Kansas river in which
water is running. Many fish are dying
in the pools which remain.

There are only a few wells in each
neighborhood which are not dry and
these must supply all the people in the
locality. Some farmers have to haul
water for house and drinking purposes,
several miles. They put several barrels
into a wagon and fill them at a well
which still supplies water and with strict
economy this will last a week. The fol-
lowing week the same thing is repeated.

Some farmers, fearful lest their only
well will go dry, keep the pump locked.
The following sign was recently noticed
on a pump near a public road: "There
is no water here so keep out." There is
seldom a time when pure water is so
hard to get and when people so reluc-
tantly dole out a drink to the thirsty
traveler. People passing through the
country frequently have difficulty in
securing water for themselves and their
horses.

The scarcity of water in the streams
makes it exceedingly inconvenient for
farmers who have much stock. A man
who traveled over the county said:
"There is not a single running stream in
the county." Shunganunga is entirely
dry for the first time in many years.

Mission, Wakarusa and Soldier creeks
still supply water, but it stands in pools
and the leaves which fell into the
streams in the fall have colored the
water so that it has almost the appear-
ance of ink.

Still these streams furnish "stock
water" and farmers living near them
drive their cattle to them every day. In
the vicinity of Mission Center many far-
mers have to drive their cattle four or
five miles to the Kansas river for water.
They are driven once every day. Men
who have only a few head, haul water
for them and thus avoid a long drive.

Of course there are a few large springs
which still supply water, but they are
exceedingly rare. The people who live
in the city and who only have to turn a
faucet in order to get all the water they
want, can scarcely realize the situation
in the country where the supply is not
inexhaustible.

Old settlers say that there has not been
such a dry season since early in the sev-
enties, when the grasshoppers came to
complete the devastation commenced by
the dry weather. If rain does not come
before winter sets in earnest the scar-
city of water may cause an actual
check to cattle feeding in many localities
as well as causing a great deal of in-
convenience to the farmers.

A Remarkable Achievement in Rail-
road Affairs.

Was the running of the Exposition flyer,
the famous twenty hour train between
Chicago and New York, via the Lake
Shore route, in service during the World's
fair. A handsome litho water-color of
this train may be secured by sending ten
cents in silver to C. K. Wilber, Western
Passenger Agent, Chicago.

A CHANGE IN TIME.

A New Time Card Took Effect on the Rock
Island Sunday.

A new time card took effect on the
Rock Island at noon Sunday. There are
radical changes in time over the whole
system from Chicago to Denver, but
fewer changes here than at any other
point on the line.

The most important change is in No.
2, the east bound passenger train from
Denver, Colorado Springs and Ft. Worth
for Chicago, which has been arriving at
3:55 and leaving at 4 p. m. Hereafter it
will arrive at 3:15 and leave at 3:20, or
forty minutes earlier than usual.

The St. Joseph plug that has been
leaving Topeka at 3:55 p. m., now leaves
at 3:25 p. m. All the other trains in and
out of Topeka retain their present time.
